Safety Instructions:

- Shelves that are higher than 2 metres must be connected to the wall, ceiling or to each other to prevent accidents.
- Before installation, make sure that the floor is level and stable to prevent tipping or wobbling.
- Observe the maximum load limits of the shelves and avoid overloading to prevent tipping.
- Ensure that the weight is evenly distributed when changing shelf configurations.
- Only use the shelf in accordance with the manufacturer's instructions and ensure proper assembly in accordance with the instructions.
- Provision of safety information and instructions for use in understandable language is required.
- Regular inspection of the shelf condition and immediate replacement of damaged parts is recommended.
- Keep children away from the shelves to minimise the risk of injury.
- Make sure that heavy objects are placed at the bottom and lighter ones at the top to ensure additional stability.
- Avoid using aggressive cleaning agents or sharp objects on the shelves.
- Shelves should not be placed near moisture or high temperatures.
