Safety Instructions:

- Ensure that the shelf is placed on a stable and level surface to prevent it from tipping over.
- Assemble and secure the shelving correctly to ensure stability.
- Avoid overloading the shelving to prevent structural and stability damage as well as safety risks.
- Use is only permitted for the intended purpose and application in accordance with the data sheets.
- Do not use the product in the vicinity of children or without child supervision, as it does not provide any restraining devices.
- Suitable for indoor use only; protect it from moisture and extreme temperatures.
- The use of protective clothing is recommended when using sharp tools or heavy parts.
- Make sure that the shelf is loaded evenly to ensure stability.
- There is a risk of injury from falling objects if handled incorrectly.
- The shelf should not be installed near sources of heat or moisture.
- Sharp edges can pose a risk of injury; take care when handling.
- Product should only be assembled and used by adults.
- Follow the assembly instructions carefully to ensure stability and safety.
- Regularly check the stability of the shelf and the integrity of the components.
- Note: Observe maximum load to ensure structural integrity.
- Secure the product against improper use to avoid the risk of falling.
