### Safety Instructions:

- Read the installation instructions carefully before use.
- Secure the shelf to the wall to prevent it from tipping over.
- Keep the sloping base away from naked flames and hot objects.
- Do not exceed the load capacity of the shelf.
- Do not use for storing food or liquids.
- Safety information: When using the sloping shelf, ensure that the maximum load capacity is not exceeded.
- The installation instructions must be followed carefully to avoid improper installation and possible injury.
- This sloping shelf may only be used in conjunction with the recommended shelf model.
- Keep the sloping floor away from damp environments to prevent material deterioration.
- Avoid contact with sharp objects to prevent scratches and damage.
