Safety Instructions:

- Maximum load capacity: 100 kg dynamic, do not exceed 150 kg static.
- Protect electrical components from water and moisture to avoid the risk of electric shock.
- Keep children and pets away from the electrically adjustable table to prevent injury.
- Activate the collision protection to prevent crushing and injuries when adjusting.
- Place the table on a stable and level surface to prevent it from tipping over.
- Make sure that there are no objects or people in the adjustment range of the table.
- Use the control panel in accordance with the instructions to avoid malfunctions.
- Carry out regular maintenance and check the electrical components for damage.
- Observe safety distances to avoid accidents during height adjustment.
- Set up out of the reach of children to avoid risks due to improper use.
- Read the operating instructions carefully and observe the safety information.
- Keep the work area clean and free of obstacles to minimise the risk of tripping.
