Safety Instructions:

- Risk of suffocation due to improper use of small parts or cables.
- Risk of electric shock due to improper handling or damage to electrical components.
- Risk of injury due to improper height adjustment and mechanical crushing.
- Activate collision protection and check regularly to avoid collisions.
- Maximum load capacity: 100 kg dynamic, do not exceed 150 kg static.
- Use the table on a stable and level surface to prevent the risk of tipping.
- Not suitable for children; use only under supervision to avoid injury.
- Before use, ensure that all parts are properly assembled and functional.
- Use the control panel in accordance with the manufacturer's instructions.
- In the event of problems with the table's electrical system, contact a specialist immediately.
- Ensure that no cables or objects remain in the height adjustment area.
- Keep the operating surface and electrical parts dry and clean to ensure safety.
- Regular maintenance and inspection of motors and electronics to avoid the risk of fire or electric shock.
- Avoid adjusting the table beyond the recommended load and do not block it during operation.
