Safety Instructions:

- Ensure that installation is carried out properly by qualified personnel to avoid injury.
- Keep small parts such as screws and plugs away from children to avoid the risk of choking.
- Only adjust the height of the desk in accordance with the instructions provided in order to avoid damage and injury.
- When adjusting the height of the desk, there is a risk of pinching; observe protection against crushing by moving parts.
- Ensure that the desk remains stable when adjusting the height.
- Use all electrical devices that may be connected to the desk in accordance with the safety instructions to avoid electric shocks.
- Make sure that the workplace has sufficient lighting to avoid health problems.
- Always lock the castors of the mobile container during use to prevent it from rolling away and to avoid injuries from falling.
- Use the mobile container in accordance with the instructions given to minimise the risk of tipping or falling over.
- Risk of slipping due to improper handling and stability of the mobile container on uneven surfaces.
- Choking hazard due to small parts when assembling or using the mobile container.
- Check the stability of the mobile container before use.
- Ensure the use of cable apertures to avoid tripping hazards.
- Take care not to overload cable outlets to avoid overheating or damage.
- Check screws and parts regularly for tightness.
