Safety Instructions:

- Observe the maximum filling quantity and load capacity to avoid overfilling and leaks.
- Only use collection containers for water-polluting liquids. Other liquids can cause damage.
- Before use, ensure that the container is placed on a stable, level surface to prevent it from tipping over and falling.
- Carry out regular inspections for cracks and damage to prevent leakage.
- Do not store near heat sources or in direct sunlight to avoid material damage.
- Chemical-resistant material, but always check compatibility with the respective chemicals.
- Collecting containers are open and without lids; take care during transport and handling to avoid spillages.
- Always use suitable personal protective equipment (PPE) when handling water-polluting liquids.
- Dispose of the collected liquids in accordance with local regulations for hazardous waste.
- Do not use for flammable or explosive liquids.
- In the event of leaks, take immediate measures to contain the liquid.
- Use only for the intended purpose and follow the manufacturer's instructions.
- Keep the product away from extreme temperatures and direct UV rays.
- Check the level indicator regularly to prevent overflow.
- Product is not suitable for food storage.
- Improper handling can lead to environmental and material damage.
