Safety Instructions:

- Risk of suffocation from small parts if the handset is used improperly.
- Beware of the risk of electric shock during the charging process, especially if the micro USB port is not used correctly.
- Ensure that the appliance is not used near water sources to minimise the risk of electric shock.
- The appliance is not suitable for children under 3 years of age due to small parts.
- Only use the mains adapter and chargers supplied to ensure the safety of the device.
- Take care to transport the device safely to avoid mechanical damage that could lead to safety risks.
