Article Numbers: 187755, 187754, 187753, 187752, 187751

Safety Instructions:

- The LED lamps in the light are not replaceable and must remain unchanged.
- Install the light in accordance with the manufacturer's instructions to avoid the risk of electric shock.
- The light is only suitable for closed, dry environments and must not be operated in damp or wet areas.
- Avoid direct contact with water or liquids to prevent damage and electrical hazards.
- The light must be mounted on a stable, non-flammable surface, keep a sufficient distance from flammable materials.
- Pay attention to the heat generated by the light, especially in closed rooms.
- Danger of excessive brightness: May impair visibility if used incorrectly.
- Risk of suffocation due to improper handling during assembly or disassembly.
- Risk of impact: Do not use uncertified cable suspensions.
- Check the condition of the light regularly to detect any visible damage.
- The light is not suitable for areas with explosive atmospheres.
- Note energy consumption: Weighted energy consumption is 25-51 kWh/1000 h.
- The light must not be used with an unsuitable power supply; do not make any modifications.
