Safety Instructions:

- Make sure to install the monitor mount correctly to prevent the monitors from tipping over or falling down.
- Avoid loading the monitor mount above its permissible weight of 7.9 kg per monitor to prevent damage or injury.
- Make sure that all cables connected to the monitors are properly routed to avoid tripping hazards.
- Only use the monitor mount for its intended purpose and in the recommended configuration to ensure safety.
- Pay attention to your back and neck when adjusting the height to avoid injuries caused by incorrect posture.
- The bracket is not intended for use in damp rooms or under extreme conditions.
- Keep the installation instructions and safety information for future reference.
