Article Numbers: 240397, 240395, 240394, 240393

Safety Instructions:

- Risk of suffocation due to improper handling of small parts such as cable coils or sleeves. Store all small parts out of the reach of children.
- Risk of electric shock due to improper use of the height-adjustable desk's electrical components. Ensure that the electrical installation is professional.
- Risk of injury due to improper operation of the electric height adjustment mechanism. Ensure that no items of clothing or body parts can become trapped between moving parts.
- Ensure that the installation instructions and the user manual are enclosed with clear safety information in a language that is easy to understand.
- Ensure that the PC holder is correctly mounted to avoid falling parts; regularly check the stability and mechanical connections.
- To ensure safe operation of the electric desk, there must be no heavy objects on the cables and the desk must be placed on a stable surface.
- Do not exceed the maximum load capacity of the desk (80 kg).
- of the drawer (30 kg).
- The electrical components may only be used for their intended purpose.
- Warning: Keep the desk area clear of obstacles when using the electric adjustment.
