

Product Safety Information

Platform scale KERN IOC, weighing capacity up to 600 kg, without calibration, different versions

Manufacturer/Responsible Person: Kern & Sohn GmbH, Ziegelei 1, 72336 Balingen, Deutschland
E-Mail: info@kern-sohn.com

Please note the technical data of the products!

Article Numbers: 157205, 157204, 157203, 157202, 157201, 157200, 157199

Safety Instructions:

- Not calibrated - only suitable for internal use, do not use for legally binding weighing.
- The platform scale is not calibrated; use only in areas where calibration is not prescribed.
- Attention: Due to the DakkS calibration certificate, the scale must be used in accordance with the standards.
- Note the ambient temperature: The scale may only be operated within -10 °C to 40 °C.
- Protection class IP 65 guarantees protection against dust and splash water; caution in damp environments.
- Ensure that the scale is stable and correctly levelled to ensure accurate weighing results.
- Not suitable for children under 14 years of age without adult supervision.
- Exercise caution when handling electrical components to avoid electrical hazards.
- When using wireless interfaces, appropriate security settings and stable connections must be ensured to prevent data loss.
- Disconnect the appliance from the power supply before carrying out maintenance work.
- Avoid contact between the weighing plate and sharp or heavy objects.
- In the event of a power failure or technical faults, do not carry out repairs yourself, but contact the manufacturer.
- Do not exceed the maximum load capacity to avoid damage.
- Regular checking of the device functions and calibration is recommended.
