Safety Instructions:

- Observe maximum load: 110 kg and use only by persons weighing up to 110 kg.
- Check the backrest mechanism and seat height before use and ensure that they are correctly adjusted to avoid injury.
- The product should only be used on a stable, suitable surface. Use on smooth floors can increase the risk of falling due to rolling movement.
- Regularly check the condition of the castors, the stability of the base and the mechanics to ensure safe operation.
- Only use the chair as intended: do not stand on the backrest or armrests, do not bounce to prevent it from tipping over.
- Taking regular breaks and sitting for a maximum of 8 hours a day is recommended to avoid health problems caused by prolonged sitting.
- Keep the chair away from children or supervise small children during use to avoid accidents. Not suitable for children under 14 years of age.
- When assembling, ensure that the parts fit correctly and follow the assembly instructions to avoid injury.
- Check the safety mechanisms before use to prevent falls.
