Safety Instructions:

- Do not use the appliance if the mains plug or the mains cable is damaged.
- Do not leave the appliance unattended while it is in operation, especially when using cleaning chemicals.
- Keep the appliance away from water and other liquids to avoid the risk of electric shock; no direct exposure to water during operation.
- Ensure that the appliance is used out of the reach of children and vulnerable persons; for use in workshops and laboratories, place it out of the reach of children.
- Do not allow the appliance to overheat during use; only operate with heating between 20 and 80 °C.
- Wear protective gloves when handling hot liquids.
- Empty the appliance completely before cleaning or transporting it.
- Only use the recommended cleaning concentrate to avoid damage; follow the instructions for use of the cleaning agent.
- Inform yourself about the correct handling and disposal of the cleaning concentrate; keep away from children.
- Nitrogen gas may be generated when using the appliance; ensure adequate ventilation.
- The appliance heats liquids up to 80 °C; beware of scalding.
- Only use the electrical appliance in dry environments; do not use near water sources to avoid the risk of drowning or electric shock.
- Read and follow the operating instructions carefully before commissioning.
- Disconnect the appliance from the power supply when not in use.
- Ensure that the appliance is placed on a stable, solid surface during operation.
- Risk of electric shock when handling electrical appliances; disconnect from the mains before opening the appliance.
- Ensure that the tap water is degassed before use in order to achieve optimum cleaning results.
