Safety Instructions:

- Ensure that the workbench is placed on a stable and level surface to prevent it from wobbling and tipping over.
- Avoid excessive loads above the maximum load capacity of 500 kg to prevent structural damage and injury.
- Ensure that all drawers are properly closed and locked to prevent unexpected opening during use and to avoid overloading them.
- Only use the workbench for the intended applications and observe the operating instructions and the intended purposes to ensure functionality and safety.
- Keep the work area free of unnecessary or dangerous objects and liquids to avoid tripping hazards and increase safety.
- Do not use the workbench improperly, as this can lead to injuries, and check the workbench regularly for damage and wear.
- Observe safety with sharp and pointed tools and store heavy parts safely.
- Use suitable tools and protective devices during installation.
- Protect the product from unauthorised access.
- Do not use the workbench in damp environments to avoid damage.
- During use, the weight risk when lifting heavy objects must be taken into account.
