Safety Instructions:

- Not suitable for children under 3 years of age due to choking hazard from small parts. Keep the appliance out of the reach of small children.
- The device is splash-proof (IPx4) and should not be immersed in water. Do not use the device in the immediate vicinity of water or in damp environments without appropriate protection.
- When using in difficult environments, ensure that the range of 10 km is taken into account, as it depends on the ambient conditions.
- Only use the recommended chargers and batteries to avoid the risk of fire and electric shock. Ensure that the device is charged correctly to avoid the risk of overheating.
- The product must not be used in extreme temperatures or weather conditions in order to avoid malfunctions. Avoid using the device in extreme temperatures or in direct sunlight.
- Make sure to store the device in a safe manner to avoid physical damage.
- Headsets should be used in accordance with the manufacturer's instructions to avoid hearing damage.
- Read the operating instructions carefully before use.
- Only use the recommended accessories to ensure safety and functionality.
