Safety Instructions:

- Choking hazard due to small parts; not suitable for children under 3 years of age and generally keep small children away from parts to avoid risks.
- Risk of electric shock if electrical devices are used incorrectly. Ensure that all electrical components are installed and maintained by a qualified technician.
- To ensure safe operation of the refrigerator: Do not block cable outlets, use fused sockets, lay cables carefully and avoid use in damp areas.
- Take care when handling: sharp edges possible, especially on the doors or corners of the furniture.
- Use only for its intended purpose; the caddy is not suitable for extreme temperatures and should be used on a stable surface to prevent tipping.
- Risk of injury due to improper handling of the mobile caddy; do not overload and check regularly for damage.
- Carry out cleaning and maintenance in accordance with the instructions to prevent damage.
- Avoid use near water sources or in poor weather conditions; with mini-refrigerators, pay particular attention to a safe distance from water.
- Read and follow the operating instructions and safety information carefully before using the appliance for the first time.
- Stop using the product if it no longer functions properly or is damaged.
