Article Number: 157250

Safety Instructions:

- Ensure that surfaces are clean and dry before application.
- Do not use on porous or dusty surfaces.
- Do not use the tape in applications where heavy weight or extreme temperatures are expected.
- During application, ensure that there is no skin contact with the adhesive.
- After installation, wait at least 24 hours before hanging loads.
- Observe the manufacturer's specifications for temperature and water resistance.
