Safety Instructions:

- The surfaces of the table are suitable for cleaning with disinfectants. Compatibility should be tested on a less visible area. Harsh cleaning agents should be avoided so as not to damage the coating.
- Make sure that the maximum load on the table is not exceeded to ensure stability.
- Ensure that the table is placed on a stable and level surface to prevent it from tipping over.
- Avoid excessive load on the table top to ensure stability.
- Make sure that no sharp or hot objects are placed directly on the tabletop to avoid damaging the surface.
- The table should be checked regularly for loose parts or signs of wear. Regularly check that all screws and connections are tight to ensure stability.
- Improper use can result in a risk of tipping, especially when adjusting the height. When using the table frame, ensure that it stands securely and does not wobble to prevent falls.
- To avoid injury when adjusting the table height, only proceed in accordance with the enclosed instructions. When adjusting the height, ensure that no fingers are trapped. The feet should be adjusted evenly to avoid wobbling.
- The product is not suitable for children under 3 years of age, as there could be a choking hazard due to small parts.
- Keep the table away from naked flames and extreme heat sources to avoid the risk of fire.
- Only use safely on a level, stable surface. Do not overload to ensure stability. Use at least two people for transport or assembly.
- Pollutant-free materials and surface treatment suitable for indoor use.
- Follow the recommended care instructions to extend the service life.
