Safety Instructions:

- Make sure that the table is placed on a stable and level surface to prevent it from tipping over or falling.
- To prevent tipping or breaking, do not hold any heavy objects on the table that exceed the permissible load capacity.
- Do not use the table for applications that go beyond its intended use, e.g. as a ladder.
- Ensure that the height adjustment is carried out safely and without force and that the table legs are correctly locked to prevent injury or accidental height changes.
- Avoid damaging the table with sharp or rough objects to minimise the risk of injury and to protect the surface.
- All steps in the instructions must be followed during assembly to ensure the safety and stability of the table.
- Regularly check the assembled parts and the height adjustment for functionality, locks and stability and make any necessary adjustments.
- The table must not be used by children without supervision and no parts of the body should be trapped when adjusting the height.
- The product should be checked regularly for stability and safety.
- Keep the table at a safe distance from walls or other furniture to avoid injury.
- Improper use may invalidate the warranty.
- Height-adjustable tables must be equipped with a suitable mechanism to ensure safety.
- Clean the table regularly and do not use abrasive cleaning agents or objects.
