Safety Instructions:

- Make sure that the table is stable and securely mounted to prevent it from tipping or falling over.
- Children should not play with the table unsupervised to avoid injury.
- Use suitable furniture glides to prevent scratches on the floor.
- The height-adjustable function should only be operated by adults to avoid possible injury.
- Regular inspection of the assembly and stability of the table is necessary to ensure its safety.
- Place the table on a stable and level surface to prevent it from wobbling or tipping over.
- When adjusting the height of the table, observe the maximum and minimum height ratings (720-840 mm).
- Ensure that all parts are properly secured after assembly to guarantee stability.
- Avoid overloading the tabletop to prevent damage or tipping over.
- The table should not be used as a sitting or standing surface.
- Regularly check the stability of the table legs and tighten them if necessary.
- Ensure that there are no sharp edges or protruding parts that could cause injury.
- If the table top edges or the powder coating are damaged, the table should no longer be used to avoid injury from harmful particles.
- Ensure that no fingers or body parts can get caught in the height-adjustable mechanism.
- The table is designed for use in offices and should not be overloaded to avoid deformation.
- Secure the tabletop properly after height adjustment.
