Safety Instructions:

- Please test the surface for compatibility with disinfectants in an inconspicuous place before use.
- The table is not suitable for outdoor use.
- The desktop connection panel may only be used with suitable devices. Ensure that the electrical connections are not overloaded and that all connections are secure.
- Regular checks and inspections for loose screws, stability and damage are recommended to prevent tipping or structural damage.
- Ensure that the table is stable and secure on a level surface to prevent it from tipping over.
- The table must not be overloaded to prevent damage or safety risks.
- Only use electrical appliances with undamaged cables and sockets and observe protection mechanisms against electric shock. Keep children away from electrical connections.
- The height of the table should be set correctly to ensure ergonomic use and prevent injuries.
- Avoid use on unstable floor coverings. When adjusting the height, ensure that no injuries are caused by jamming or sudden changes in height.
- Installation should only be carried out by trained personnel or adults. Instructions must be followed carefully to ensure safe use.
- Only use recommended and suitable cleaning agents to clean the table surface in order to avoid damage.
- The table should not be subjected to excessive forces or loads, such as placing heavy objects on the table top.
- Keep the table away from heat sources, direct sunlight and moisture to prevent material damage.
- Children should not use the table without adult supervision. Take care with all mechanical functions such as height adjustment to avoid injury.
- Check all electrical appliances regularly for functionality and damage. Make sure that the cables are laid securely to avoid tripping hazards.
