Safety Instructions:

- Ensure that the table is stable on a level surface to prevent it from tipping over or wobbling.
- Avoid overloading the table or table top to prevent structural damage and stability problems.
- The height adjustment should be carried out carefully at idle to avoid crushing or injury.
- Regular inspection of the height-adjustable mechanism and stability of the table top is necessary to ensure safe use.
- Ensure that electrical connections are installed and used correctly to minimise the risk of electric shock.
- Use suitable cable management solutions to prevent tripping hazards.
- Avoid sharp or abrasive objects on the table surface to prevent damage.
- The table connection should only be used with compatible devices in accordance with the manufacturer's specifications in order to prevent electrical hazards.
- Use of the table and all connections under adult supervision, especially in the vicinity of children, is recommended to avoid accidents.
- Follow the installation instructions and safety information carefully to avoid accidents during installation.
- Please use the table in accordance with the manufacturer's instructions to avoid injury.
