Safety Instructions:

- Avoid sitting on the edge of the table to prevent falls.
- Ensure that the table height is set correctly to prevent ergonomic problems.
- The table must not be overloaded; avoid heavy objects to prevent tipping and material damage.
- Keep the table away from sources of water and protect it from moisture to prevent damage.
- The table top is not suitable for climbing on or for other unintended uses.
- Ensure that the table height adjustment functions properly to prevent accidents; make sure that no parts of the body can become trapped when adjusting the height.
- Provide clear instructions for safe use and assembly of the table; follow assembly steps carefully to ensure stability.
- Regularly check the stability of the table frame, especially after height adjustments or intensive use, to avoid tripping accidents.
- Not suitable for children under 3 years of age due to the possibility of injury from improper use.
- Only use the table on level surfaces to ensure stability.
- The product should stand securely and not tip over, especially when the height is adjusted.
- The table is not suitable for outdoor use and should be protected from moisture.
- Avoid direct contact between the tabletop and hot objects to prevent heat damage.
- Provide accessible information about the manufacturer and contact details to enable feedback and complaints.
