Safety Instructions:

- Make sure that no small parts are easily accessible to small children and place the table out of reach of children to prevent injuries.
- Avoid attaching pointed or sharp objects to the table surface or in the vicinity to prevent scratches, damage and injuries.
- Ensure that the table is placed on a stable, level surface to minimise the risk of tipping over and falling.
- Observe the maximum load limit of the table to avoid stability and structural damage.
- Assembly should be carried out by specialised personnel and the instructions should be read carefully to ensure correct assembly, stability and safety.
- Avoid using flammable or aggressive cleaning agents on the table surface to prevent damage.
- Check the product regularly for damage and ensure that all parts are securely mounted to prevent tipping or falling over.
- The table is designed for indoor use and is not waterproof.
- Ensure that the height adjustment is correctly set and locked to prevent injuries and tipping over.
- Observe the safety regulations when using electrical appliances; avoid damaging or overloading the electrical connections.
- Keep the table clean and away from strong sources of moisture to prevent corrosion.
- Do not overload the tabletop to minimise the risk of damage and injury.
- When using the table, pay attention to the height adjustability and ensure that it is operated correctly.
