Safety Instructions:

- Ensure that the conference table is stable, especially on uneven surfaces, to prevent it from tipping or falling over.
- The height-adjustable parts must be correctly locked and adjusted according to the instructions to prevent injuries and falls.
- Avoid sharp edges or corners and the presence of small parts that could pose a risk of injury or suffocation.
- The electrical connection panels must not be overloaded and should only be used safely by persons with the appropriate expertise.
- Table surfaces can be cleaned with disinfectants, but compatibility should be tested on a less visible area.
- Do not overload the tabletop to avoid deformation or damage.
- Follow the assembly instructions and use suitable tools to ensure stability.
- Children under the age of 12 should not handle the table unsupervised in order to minimise the risk of injury.
- Ensure that all electrical components are properly installed to avoid risks such as fire and electric shock.
- When adjusting the height of the table, care should be taken to ensure that no parts of the body are trapped.
- Assemble the table correctly to ensure safe use and check all screw connections regularly.
- The table is not suitable for outdoor use as the materials may be affected by the weather.
