Safety Instructions:

- Avoid dropping heavy objects on the table top to prevent damage to the surface.
- Edges or corners of the table can be sharp and cause injury. Be careful.
- The surfaces of the table are suitable for cleaning with disinfectants, but this should first be tested on an inconspicuous area to ensure compatibility.
- When using desktop connection panels: Keep them dry and avoid excessive loading to prevent damage and electrical hazards. Do not overload to avoid overheating.
- Ensure that all electrical connections are tight and check the 3-gang and 6-gang table connection panel regularly for damage.
- Remove small parts to avoid choking hazards, especially for children. Observe the safety instructions regarding use in the vicinity of children.
- Keep the table away from direct heat and moisture to avoid damage. Please avoid excessive heat or moisture in the vicinity of the product.
- Regularly check the stability and tightness of the screws to ensure stability. Table legs and levelling screws should be correctly adjusted and checked regularly.
- The height adjustment of the table frame should only be carried out in the intended grid and the adjustment mechanisms should be correctly locked to ensure stability and prevent injuries. Height adjustment should only be carried out by one person.
- To prevent falls, do not use the table as a springboard or climbing frame.
- Follow the enclosed instructions during installation work, as this is essential for safety.
- Make sure that the table is placed on a level surface to ensure stability and safety.
- Avoid overloading electrical appliances to prevent the risk of fire.
- Avoid the risk of slipping due to unsafe positioning on smooth surfaces and ensure that the table is stable during use.
- Keep sharp objects away from the edge of the table to prevent damage.
