Safety Instructions:

- Test the cleaning agent on an inconspicuous area first.
- Ensure that the table is stable during height adjustment to avoid accidents.
- Keep the edges of the table free of objects that could cause you to trip.
- Avoid settings that exceed the maximum height of 850 mm to prevent mechanical failure.
- Observe the maximum load capacity to ensure stability and safety.
- Avoid tipping over on uneven surfaces.
- Follow the recommended installation instructions to ensure stability.
- Use edge protection to prevent injuries from sharp edges.
- Check the floor covering under the table to prevent slipping.
- Secure the table to prevent it from wobbling.
- Avoid sharp objects to prevent scratches on the table top.
- Make sure that no body parts get caught between the parts when adjusting the height.
- Use by children should take place under supervision.
- Make sure that the table is placed on a stable surface.
- Do not use the table for sitting or standing.
- Suitable for indoor use only.
- Observe the maximum load capacity: Overloading can lead to damage.
- Only make height adjustments using the techniques provided.
- Before use, ensure that all bolts and screws are firmly tightened.
- Pay attention to sharp edges and corners when passing by.
- Before distribution, ensure that the product is safe in accordance with safety regulations.
- Provide clear and understandable safety instructions for consumers.
- Products must comply with the applicable standards and undergo regular safety checks.
- Provide information about recalls or safety warnings and enable feedback.
- Consider the needs of vulnerable groups, including children, in the design.
