Safety Instructions:

- The aluminium box is not intended for direct contact with food.
- Risk of suffocation due to improper use or improper storage.
- Avoid overloading to prevent deformation, damage or tipping over.
- Protect the box from extreme temperatures and humid conditions to prevent corrosion.
- Ensure that the aluminium box is properly closed to minimise the risk of opening and the associated injuries.
- Avoid sharp edges when handling to prevent cuts.
- Ensure adequate ventilation for use and storage to prevent the build-up of harmful vapours.
- Do not use the box for hazardous materials, chemicals or flammable materials.
- Ensure protection from the weather for outdoor storage.
- Regularly check the fasteners and rivets for wear or damage.
- Store in a childproof place to prevent access by small children.
- Take care on smooth surfaces to prevent tipping over.
