Safety Instructions:

- Caution: Sharp edges can cause injuries.
- Take care when lifting: The weight may vary depending on the size of the box (3.0 - 9.0 kg).
- Do not overload the box to avoid damage or tipping over.
- When using the lever tension locks, make sure that they are properly closed to ensure protection against splash water and dust.
- Check that the rubber seal is intact to protect the contents from dust and moisture.
- The transport box should not be used with hazardous substances or chemicals.
- Protect the box from extreme temperatures, moisture and heat sources to prevent material deformation.
- Use ergonomic carrying handles to prevent slipping during transport.
- Ensure that the lid is firmly closed to prevent unintentional opening.
- Keep the box away from children to avoid accidents and the risk of suffocation.
- Suitable for the transport of sensitive devices; ensure that the contents are properly secured and the box is intact.
- Check regularly for wear and tear to extend the service life.
- Avoid impacts or improper handling to prevent damage.
- Do not use in areas where the box could be exposed to shocks or sharp objects.
- Clean and store properly after use.
- Use the operating instructions before first use.
- Secure hinged lids securely to prevent accidental opening.
- Do not stack the box to ensure stability.
