Safety Instructions:

- Due to its weight, the container should be handled with care to avoid injury.
- The container must not be pushed over uneven floors to prevent damage.
- Always lock containers to prevent unauthorised access, especially if sensitive documents are stored.
- Use height-adjustable plastic glides to position the container stably and prevent it from tipping over.
- Do not overload drawers; maximum load per drawer: 25 kg to prevent damage.
- Drawers with soft-close system close gently to maintain functionality and prevent crushing.
- Do not place any heavy or sharp-edged objects in drawers to prevent injuries.
- Protect the container from water and moisture to prevent material damage.
- Do not use in extreme temperatures or aggressive environments.
- Contains small parts, choking hazard possible, especially for children.
- Target groups: For adults only. Keep children away from application.
- When adjusting the floor glides, ensure that the container is stable.
- Do not place any heavy objects on the top of the container to prevent it from tipping over.
- Check the lock regularly and keep it in perfect condition to ensure that the contents are secure.
- Use central locking to prevent unauthorised access.
- Follow the installation instructions carefully.
- Secure the container to a wall to prevent it from tipping over.
- Read the installation instructions and safety instructions before commissioning.
- No misuse of the container, use only for the intended purpose.
- Check floor glides regularly to ensure stability on different floors.
- Keep children away from small parts and ensure that they do not play with the container.
