Safety Instructions:

- Ensure that the container is standing on a stable, level surface to prevent it from tipping over.
- Drawers should not be overloaded; maximum load per drawer is 25 kg to avoid breakage and injury.
- The drawers are equipped with a soft-close system; make sure that fingers do not get trapped.
- Use height-adjustable floor glides and check them regularly to ensure stability and prevent floor damage.
- Keep children away; small parts pose a choking hazard and injuries from mechanisms are possible.
- Check the lock regularly; use it securely in accordance with the instructions to prevent theft and unauthorised access.
- Avoid damage by keeping the container away from moisture, extreme temperatures and direct heat.
- Only use the product in accordance with the intended instructions for use.
- Carefully read and follow the safety and installation specifications to ensure stability and safety.
- Do not use the container to store hazardous or highly flammable materials.
