### Safety Instructions:

- Observe the maximum load capacity, avoid overloading to ensure stability and safety.
- Place the product on a stable and level surface to prevent it from tipping over.
- Secure the cabinet to the wall to prevent it from tipping over.
- Take care when opening and closing the doors to avoid crushing injuries.
- Regularly check for wear or damage, especially to door hinges and screws.
- Use safety fittings and mechanisms to minimise the risk of injury when opening and closing the doors.
- Follow the assembly and installation instructions carefully to avoid safety risks.
- Keep small parts and assembly accessories out of the reach of small children to avoid the risk of suffocation.
- Use the product in accordance with the recommended instructions for use to avoid accidents.
- Transport and assembly only with suitable aids and sufficient personnel due to the size and weight of the cabinet.
- Do not use the cabinet in humid environments as this may affect the material integrity.
- Place the product out of the reach of children to minimise the risk of injury and falls.
- Regularly check the stability of the cabinet to avoid bending or instability.
- Store heavy objects securely and do not place them at the top of the cupboard to minimise the risk of tipping over.
- Note any sharp edges or corners; check for damage before use.
- Designed for indoor use; not suitable for outdoor use.
