Safety Instructions:

- Ensure that the mobile container is stable during transport and use.
- Avoid overloading the drawers beyond the maximum load capacity of 15 kg per drawer.
- If necessary, secure the mobile pedestal to prevent it from rolling away, especially when used on slopes. Use of the parking brakes is recommended.
- Keep small children away from the castors and drawers to avoid injury and as small parts can be swallowed.
- When using the lock on the drawers, ensure that the key is stored securely and that the lock mechanism is only used for its intended purpose.
- Please only use the mobile pedestal for its intended purpose.
- Make sure that all drawers are properly closed to avoid accidents.
- When moving the mobile container, be sure to use the lockable castors to ensure stability and prevent it from tipping over.
- Keep the roller container away from heat sources and damp environments to prevent damage to the material.
- Ensure that the lock mechanism is working properly to prevent unauthorised access.
- Choking hazard due to small parts in the utensil drawer.
- Risk of tipping if the mobile container is used incorrectly or overloaded. Ensure that the mobile container is placed on a stable and level surface.
- Pull the drawers out completely during use to prevent them from falling over.
- Read all safety instructions and assembly instructions thoroughly before use.
- Regularly check the stability of the castors and ensure that they are working properly.
