Safety Instructions:

- Check all parts and accessories for damage before use.
- Secure the lockable castors when using on smooth surfaces and during use.
- Protect the product from moisture and do not use in highly humid rooms.
- Avoid overloading the drawers by more than 15 kg to prevent damage.
- To avoid injury, do not store any sharp or pointed objects in the drawers.
- Regularly check the stability of the mobile container to prevent it from tipping over.
- Drawers are not suitable for standing or sitting.
- Do not use the mobile pedestal as a staircase or ladder.
- Avoid use on uneven surfaces as this can impair stability.
- Make sure that children cannot swallow any small parts; risk of choking.
- There is a risk of slipping if transported incorrectly or on uneven surfaces.
- There is a risk of crushing when closing the drawers.
- Ensure that the product is used on a stable and level surface.
- The lock is not suitable for children, especially if the key is lost.
- Caution: Requires a safe and stable environment during use.
- An interchangeable cylinder lock is included; make sure it works correctly.
- Close the lock when leaving the product to prevent unauthorised access.
