Safety Instructions:

- Observe the maximum load capacity of 15 kg per thrust to avoid overloading.
- Only pull drawers in or out completely and close them after use to prevent them from falling out and being pulled out unintentionally.
- Regularly check the castors for wear, functionality and correct securing to prevent tipping and uncontrolled rolling away.
- Use on flat surfaces to prevent tipping.
- Before use, ensure that the mobile pedestal is properly assembled and the castors are correctly secured.
- Storing heavy or dangerous items safely inside the drawer and using the lock for valuable items.
- Keep the product away from fire and moisture and use it properly.
- Do not use by children to avoid injury.
- Avoid improper handling of the lock to prevent malfunctions.
- Carry out regular maintenance to ensure that the product remains functional.
- Use clear instructions in understandable language and ensure that storage or transport conditions do not affect product conformity.
- Beware of sharp edges on metal parts to avoid injury.
