Safety Instructions:

- Ensure that the waste bin is stable both indoors and outdoors to prevent it from tipping over.
- When opening and closing the double doors, ensure that your hands are not trapped.
- Do not place waste bins near open flames or other sources of fire, even if they are fireproof.
- Regularly check the fire resistance and material integrity.
- Take the waste collector out of operation if the access opening is broken or missing.
- Only use the waste bin for its intended purpose.
- Wear gloves to avoid injury when handling.
- Check regularly for possible damage or wear.
- Do not overload the waste bin to avoid tipping or damage.
- Do not use the product for children under 3 years of age, as there is a choking hazard.
- Store safely and follow the handling instructions to avoid injury.
- Regular maintenance required to prevent theft and improper use.
- Risk of injury: Make sure that all waste is thrown in safely and that no sharp objects are sticking out.
- Place the waste bin out of the reach of children.
- Correct handling requires covering with the metal lid to avoid injury.
- Do not expose the waste collector to direct weather conditions for long periods of time.
- Empty regularly to avoid overfilling, especially in public areas.
- Be careful when handling the metal lid as it can become hot.
- Avoid contact with chemical substances that can cause corrosion.
- In the event of damage or signs of defects, the product should not be used and the manufacturer should be contacted.
- Installation and assembly by authorised personnel only.
