Safety Instructions:

- Use by adults only; not suitable for children and keep away from children.
- Use the office chair on stable, level surfaces to avoid tipping over and the risk of slipping.
- Do not exceed the maximum load of 120 kg; overloading can cause damage.
- Ensure that the office chair is properly assembled and positioned to avoid injury.
- When adjusting the height and setting the mechanisms, take care to avoid the risk of injury from jamming.
- Castors are load-dependent braked; use only on suitable floor coverings and check regularly for wear.
- Only use the armrests within the scope of the intended adjustment options in order to avoid tension and injuries.
- Carry out regular checks for wear or damage to parts, mechanisms and safety mechanisms.
- Regular cleaning of the fabric cover and protection from water and heat to prevent material damage.
- Ensure ergonomic use; a sitting time of more than 8 hours with regular breaks is recommended.
- Check mechanical parts regularly for tight fit and functionality.
- The chair should always be set up free of obstructions to avoid tripping hazards.
