Safety Instructions:

- Do not set the seat height above 550 mm to prevent it from tipping over.
- The backrest must always be properly locked in place.
- Avoid overloading the chair beyond 110 kg or more. The chair can be loaded up to 110 kg.
- The armrests should be adjusted so that they do not put strain on the shoulders. Height-adjustable armrests should be set correctly to avoid tension.
- Chair should only be used on suitable surfaces; not suitable for uneven or unstable surfaces.
- Make sure that the castors are suitable for the floor covering in question to prevent slipping or tipping.
- Made from materials that do not release harmful chemicals; regular inspection of the chair for wear is recommended.
- Ensure that the office chair is suitable for the intended use.
- Do not exceed the recommended sitting time to avoid health problems.
- If used incorrectly, the chair may tip over; use safely.
- Ensure an appropriate sitting posture to avoid back problems.
- The chair was delivered disassembled; follow the assembly instructions to avoid injury.
