Safety Instructions:

- Before use, ensure that the diesel tank is undamaged.
- Only allow authorised and trained personnel to fill and operate the appliance to ensure operational safety.
- Operation only permitted outdoors or in well-ventilated areas, the product is not suitable for indoor use.
- Take care when handling the electric pump to avoid electric shocks. Protect the 230 V electric pump from contact with water. Ensure that proper earthing is in place.
- Keep small parts and equipment away from children to avoid the risk of suffocation.
- Always monitor the fill level to avoid overfilling and leaks. Regular inspection of the seals and connections for leaks is recommended.
- Ensure disposal in accordance with the applicable regulations for hazardous waste.
- Ensure that the tank is on level, stable ground to prevent it from tipping over.
- Important: Only fill with diesel, other liquids could damage the pump or the tank.
- Optimum outdoor use only with the hinged lid closed to prevent environmental damage.
- Observe safety measures when using the spray gun to avoid the risk of splashing. Only use with the intended spray gun.
- Caution: Risk of fire if the diesel is handled incorrectly.
- Safety instructions must be observed at all times and affixed to the product.
