

Product Safety Information

Mobile tank unit diesel trolley, 60 l or 100 l, various pump versions, hose 3 m. Pump versions, hose 3 m

Manufacturer/Responsible Person: CEMO GmbH, In den Backenländern 5, 71384 Weinstadt, Deutschland

E-Mail: kontakt@cemo-group.com

Please note the technical data of the products!

Article Numbers: 138549, 138548, 138546, 138545

Safety Instructions:

- Only operate outdoors or in well-ventilated areas to minimise vapours and fire hazards.
- Do not store or operate in closed rooms.
- Do not store the mobile tank system above 20 °C to avoid overpressurisation.
- Protect the container from force or impact to prevent leaks or breakage.
- Do not allow smoking or naked flames near the petrol station or during the refuelling process.
- Observe the maximum delivery limit of the pump to avoid overfilling.
- Check the hose and pump unit for leaks after each use.
- Take care when removing fuel - do not overheat or leave the pump unattended.
- Only use the tank for diesel fuels, avoid other liquids.
- Ensure ventilation during operation.
- Only allow trained personnel to operate, especially in the case of electric pumps.
- Childproof lock: Keep out of the reach of children.
- Check for visible damage or leaks before use.
- Do not overfill the tank to avoid leakage and environmental damage.
- Danger due to the transport of fuels - use only in authorised quantities.
- Risk of electric shock: For electric pumps, ensure that the connections are dry.
- Mark the trolley as 'non-flammable'.
- Always wear protective clothing and gloves when handling fuels.
- Keep the tank away from ignition sources.
- When filling, ensure that the tank is on a stable surface.
- The tank is not suitable for the safe transport of highly flammable liquids.
- Check the seals and hoses regularly for damage; do not use if damaged.
- Keep children away from the product and staging area.
