Safety Instructions:

- Before using the mobile fuelling system, ensure that all electrical connections are properly installed and checked for damage to prevent electric shocks.
- Caution: There is a risk of suffocation and chemical burns due to improper handling of AdBlue. In the event of contact with skin or eyes, rinse immediately with water and seek medical advice. Wear suitable protective gloves when using the AdBlue Trolley mobile refuelling system and observe the safety information on correct disposal.
- Do not use the tank system in closed rooms and ensure that it is stable on a level, dry surface to prevent vapours from accumulating and tipping over.
- Check the hose and nozzle regularly for leaks or other damage to prevent leaks.
- Keep the appliance out of the reach of children and ensure that it is only used by trained personnel.
- Before using the product, read the operating instructions and ensure that all small parts are handled properly to avoid the risk of choking.
- Do not operate the pump and electrical components in the rain or in damp environments. Keep flammable materials away and do not use the product near open flames or heat sources.
- Ensure that the hand pump is not overloaded and that the maximum flow rates are observed.
- Before transport, ensure that the product is properly sealed to prevent leaks.
- Dispose of the product and its packaging in accordance with the applicable regulations for chemicals.
