Safety Instructions:

- Ensure that the monitor arm is mounted correctly and stably to avoid accidents.
- To minimise the risk of breakage or falling, do not exceed a load capacity of 12 kg for the monitor arm.
- Only use the quick release on the VESA head within the intended framework to avoid injury.
- Ensure correct handling when adjusting the height in order to avoid injuries in the event of improper use.
- Use the integrated cable management to prevent tripping hazards caused by loose cables.
- During installation, ensure that the mounting area is suitable for the product and that the table clamp is correctly attached.
