Safety Instructions:

- Use of the locker is at your own risk. The manufacturer is not liable for improper use or installation.
- Close the locker door securely to prevent injury or damage and to prevent unauthorised access.
- Do not use for the storage of hazardous or liquid substances.
- The product should not be used in areas where it is exposed to strong impacts or extreme temperatures.
- Make sure that the locker is stable during use and is properly secured to prevent it from tipping over.
- Installation should be carried out in accordance with the enclosed instructions, using suitable fixing materials and taking safety precautions into account.
- Use storage only for suitable items, do not overload to avoid structural damage.
- Suitable for commercial use; not suitable for children, therefore keep out of reach of children to avoid risk of suffocation.
- Regularly check the condition of the rotary bolt lock and carry out regular checks to ensure that the locking mechanism is working properly.
- If there are signs of damage or safety problems, contact the manufacturer and follow the recall procedures.
- Check the components for possible sharp edges before installation.
- Use suitable cylinder locks to increase security and, if required, optional locks for additional security.
- Small children should not be left unattended near the locker to prevent injury from crushing.
- Make sure that no objects are trapped between the door and the cabinet to prevent damage.
