Safety Instructions:

- Ensure that the module is secure and stable to prevent it from tipping or falling over. Use only recommended on level surfaces.
- Avoid overloading the seating surfaces and observe the maximum load capacity to prevent damage.
- Keep the product away from moisture and direct sunlight to prevent material damage.
- Check the turning mechanism regularly for damage, wear and tear and functionality to ensure safety.
- Keep small parts away from children to avoid choking hazards. Not suitable for children under 3 years of age, as small parts can pose a choking hazard if left unattended.
- The module is not suitable for use by persons with reduced mobility without supervision.
- Take care when adjusting the seat levels: Risk of crushing injuries. Make sure that the seat level is correctly locked before you sit down.
- Caution: Before using the turning mechanism, ensure that no body parts can become trapped.
- Avoid suffocation: Use accessories that are inaccessible to children.
- Materials may contain allergens; watch out for skin reactions in allergy sufferers.
- Use in commercial facilities should take into account the number of users and the space available.
- Make sure that the turning mechanism is safe and functional to avoid injury.
- The use of fabrics for upholstery could present a fire hazard; observe the fire standard EN 1021-1-2.
- Avoid using the product in areas with excessive moisture to prevent mould growth.
- The product height of 620 mm should be appropriate for the intended use in order to minimise the risk of falling.
- The seat should be checked regularly for damage to ensure user safety.
