Safety Instructions:

- Risk of suffocation due to improper use when using the waste paper basket with flame extinguishing head.
- Take care when disposing of flammable materials in the waste bin to avoid the risk of fire. Only dispose of materials in accordance with their intended use.
- Ensure that the self-extinguishing lid functions correctly and is not blocked or tampered with to prevent the spread of flames.
- Do not overheat or expose to extreme temperatures as this could impair the function of the material. Do not bring into contact with flammable materials.
- Keep the waste bin out of the reach of children to avoid accidents.
- Check the product regularly for signs of damage or wear to ensure that the fire protection mechanism is functioning properly.
- In the event of excessive use of paper or dry material, ensure that the waste bin is emptied regularly and not overfilled to ensure proper functioning.
- To avoid the risk of fire, do not fill the waste bin above the maximum filling level.
- Do not place the waste bin near sources of heat or naked flames.
- In the event of a fire, inform the relevant authorities immediately.
- Proceed in accordance with local regulations for hazardous waste before disposal.
- The self-extinguishing lid is a safety feature, do not replace it or open it during a fire.
- Beware of fire: Use only for its intended purpose and prevent excessive accumulation of flammable materials in the waste bin.
