

Product Safety Information

Recyclables collection system 2000, supplementary element

Please note the technical data of the products!

Article Numbers: 72658, 72644

Safety Instructions:

- Make sure that the container is set up in a stable position to prevent it from tipping over and causing injury.
- Only use the container for the intended materials to avoid overfilling and the associated risks.
- Keep the container away from children to avoid injury from improper use.
- Using the container without a suitable lid can lead to unforeseen risks, so be sure to order the lid separately and use it when using the container.
- Be careful when using sharp or heavy objects so as not to damage the material.
- Check containers regularly for cracks or damage.
- Use in accordance with local waste disposal regulations.
