### **Safety Instructions:**

- Choking hazard for children due to small parts.
- Risk of electric shock if the product is used or connected incorrectly.
- Do not use the socket if the cable is damaged and avoid contact with water.
- Avoid overloading the socket strip beyond the maximum load of 2100 mA and only use it for its intended purpose.
- Risk of ignition in the event of overload or short circuit.
- Pay attention to the child safety lock to prevent misuse by children. Check that it is present in all sockets.
- Only suitable for indoor use (IP20). Do not use outdoors or in damp environments.
- Monitor the status of the power strip via the on/off switch.
