Safety Instructions:

- Ensure that the waste bin is stable to prevent tipping and injury; use on a stable, level and dry surface with intact anti-slip feet.
- Avoid overloading the waste bin to prevent damage, tipping over and the risk of overflows.
- The waste bin should be emptied regularly to avoid overfilling, hygiene problems and the risk of it falling over.
- Keep the area around the waste bin free of obstacles to avoid accidents.
- Place the waste collector away from heat sources and harmful waste to avoid fire hazards and damage.
- The waste bin is designed for indoor use only; avoid outdoor use.
- In the event of damage, especially cracks in the plastic, take the waste bin out of operation.
- Place out of reach of children to avoid dangers such as suffocation; children should not play unsupervised.
- Beware of sharp edges during assembly and handling; note the risk of suffocation from small parts in the packaging.
- Risk of injury due to improper handling of the swing lid; do not block or force open the mechanisms.
