Safety Instructions:

- The luminaire contains built-in LED lamps that cannot be replaced. If defective, the entire luminaire must be replaced. No maintenance by consumers possible.
- Use of the light near water sources or in damp environments should be avoided to prevent the risk of electric shock. Not suitable for outdoor use.
- Disconnect the light from the power supply if maintenance work is required.
- Ensure that the light is not damaged by excessive mechanical stress.
- The light is intended for indoor use and should only be used with the specified maximum table thickness (95 mm) to ensure stability.
- Regular visual and functional checks must be carried out on the lighting in work areas.
- Choking hazard due to small parts in the lampshade.
- Motion sensor: Light is dimmed after 30 minutes without movement. Keep the area around the light free of obstacles.
- Not suitable for use by children under 14 years of age without supervision to avoid injury or electric shock.
- Ensure that the switch is positioned at a height that is easy for the user to reach.
